Frequently Asked Questions (FAQ)

Q1: Where can I find a digital copy of the Stihl FS 55 R manual?

A1: Stihl's official website is the best place to start. They typically have a comprehensive online library of manuals for their products. You can also search online retailers like Amazon or eBay, where many sellers offer digital downloads or links to the manuals. However, always verify the source to ensure you're getting the correct and official document.

Q2: My Stihl FS 55 R won't start. What should I do?

A2: First, consult the troubleshooting section of your manual. Common causes include low fuel, a faulty spark plug, clogged air filter, or an issue with the fuel line. Check these components before attempting further troubleshooting or seeking professional help.

Q3: How often should I change the cutting line on my Stihl FS 55 R?

A3: The frequency depends on usage. Regular use necessitates more frequent line changes. Inspect the line regularly. If it's frayed, worn, or significantly shorter than its optimal length, replace it. Always refer to your manual for specific instructions and line specifications.

Q4: What type of fuel should I use in my Stihl FS 55 R?

A4: The manual specifies the recommended fuel-oil mixture. Always use a high-quality, unleaded gasoline mixed with the correct ratio of Stihl HP Ultra or equivalent two-stroke engine oil. Using the incorrect fuel mix can damage the engine.

Q5: Can I use any type of cutting attachment with my Stihl FS 55 R?

A5: No. Only use attachments specifically designed and approved by Stihl for use with the FS 55 R. Using incompatible attachments can damage the trimmer and pose a safety hazard. Consult the manual for a list of compatible accessories.

Q6: How do I properly maintain the air filter?

A6: The manual provides detailed instructions. Generally, you'll need to remove the filter, carefully clean it with compressed air or a suitable cleaning solution, and allow it to dry completely before reinstalling. Replace the filter if it's severely damaged or beyond cleaning.

Q7: What should I do if my trimmer starts vibrating excessively?

A7: Excessive vibrations could indicate a problem with the drive shaft, cutting head, or other components. Immediately stop using the trimmer and inspect it carefully. If you can't identify the cause, consult your manual or contact a Stihl service center.

Q8: Where can I find replacement parts for my Stihl FS 55 R?

A8: Stihl authorized dealers are the best source for genuine replacement parts. They can ensure you're getting parts that meet Stihl's quality standards and are compatible with your model. Ordering online from authorized dealers is also a convenient option. Avoid using non-Stihl parts as they may compromise the performance and safety of the machine.
